

2012 Employee Giving Campaign

Oct. 26 - Nov. 30, 2011

Everyday Heroes

Michelle has been a long time supporter of the Employee Giving Campaign as well as Spirit of Courage in hopes of raising much needed funds to support as many patients as possible! "It's a great feeling to know that with something as small as a \$20 gas voucher you have impacted someone's life! Our patients are so thankful for the support and just knowing they are not walking this journey alone."

There are TWO Funds that directly help support our patients!

Charitable patient care is one of the most rewarding programs. For hundreds of Jennie Edmundson Hospital patients in genuine need each year, coping with serious illness and mounting medical bills at the same time can be overwhelming. The Foundation's Charitable Patient Care Fund helps relieve the burden with funding for medical services, therapies and prescriptions.

Charitable Patient Care Fund

Social workers, physicians, nurses and caregivers work with the Foundation to identify patients who are in financial need. Support from friends like you help fund shortfalls until a long-term solution is determined.

Spirit of Courage Charitable Patient Care Fund:

This fund provides financial assistance to JEH Cancer Center patients who are uninsured and/ or underserved with treatments, medications and transportation. Our primary source of funds are raised through our annual Spirit of Courage Weekend.

A word of thanks from Esther:

"Cancer is life-consuming and lonely, especially when you don't have anyone at home with you. But every step of the way I met so many wonderful caring professionals who made me feel like family. Their support and friendship helped me to keep going in for the treatments. After each treatment I felt renewed with the strength I needed to get through to the next day." Thank You!

Thanks to hundreds of donors who support the Spirit of Courage Weekend we are able to provide financial assistance to amazing women like Esther. Unfortunately far too often we find that the need far outweighs the funds available so ***I hope you will consider joining me today through your support to the Employee Giving Campaign with a gift to the charitable patient care fund!***
